

# Cookie policy

## Background on the use of cookies

GovernIT B.V., doing business as Cqure, uses cookies and similar techniques (hereinafter “cookies”) for technical, functional and analytical purposes. Cookies are small text files that are put onto your computer, telephone, tablet or other device while you are using a website – in this case, ours. Our cookies store and read, for various purposes, data relating to your use of our website. In this Cookie policy statement, we explain which cookies we use, for which purposes and for how long the information is stored.

## Cookies that are always placed on your computer

Cqure places on your computer cookies that are technically necessary to make our website at least operational or that are functionally necessary to remember your settings or preferences. Cqure also uses purely analytical cookies that collect information that is strictly necessary for Cqure to be able to assess the quality and effectiveness of the website. These cookies have little or no impact on your privacy. The cookies that Cqure puts onto your computer are first-party cookies. This means that they are from our own domain. In addition, cookies from the domain [sharethis.com](https://sharethis.com) are put onto your computer. These are used for social sharing and buttons. ShareThis stores cookies on behalf of the third parties [Mixpanel](#) and [FullStory](#).

Below you will find the list of cookies that will be put onto your computer once you have given us permission, on our cookie banner, to do that.

Name	Domain	Type	Storage period
__unam	.cqure.nl	Analytical cookie (Google Analytics)	9 months
